

Test your Antenna at EuCAP 2014

MVG is bringing StarLab to EuCAP and you are invited to test its capabilities live!

The new and improved StarLab, MVG's practical, portable, fast and accurate antenna measurement system, will be available for **complimentary testing and measurement of antennas while at EuCAP.**

Take advantage of this unique opportunity and bring your antenna to The Hague, The Netherlands, from 6-11 April and to **booth 17/18!**

To ensure the availability of equipment for your particular antenna measurement, make sure you reserve a session in advance of the show.
